The bylaws framed by the Kolar cncl for the introduction of the daily conservancy system in place of the pit-privy system and the levy of sanitary cess at certain rates were sanctioned in G O no L 8445/ml 63-28-173 dy 28-6-1929

involves a recurring expenditure of Rs 864 which is proposed to be met from the closing balance There is very little closing balance at the credit of the Municipal and what little balance there is will have to be reserved for making up the sum of Rs 2000 to be kept on the Govt Treasury The Municipality expect an income of Rs 1100 from the introduction of the daily conservancy system and hope to make up the expenditure In view of the unsatisfactory financial condition of the finances, the extra assessment proposed may perhaps be sanctioned for one year in the first instance

As the arrangement is permanent, the Continuance of the Establishment is necessary and has perhaps to be sanctioned The Council will adjust the expenditure as funds permit
